

## **REQUEST FOR COMMITTEE ACTION**

### **HENDERSON COUNTY PLANNING BOARD**

**MEETING DATE:** Thursday, March 19, 2009

**SUBJECT:** Public Input Process for Planning Board Review of Community Plans and other Area Specific Plans

**STAFF CONTACT:** Anthony Starr, AICP

**ATTACHMENTS:** None.

#### **SUMMARY OF REQUEST:**

The Planning Board Chairman requested to review the process for receiving public input at the Planning Board meetings when reviewing community plans and other area specific plans. Options may include limiting public input to only individuals whom have a direct interest in the study area of the community plan (i.e. resident, property or business owner). The Board may also provide that these stakeholders may have more time than speakers not directly impacted by the proposed plan or the Planning Board could require that stakeholders speak first before general public speakers.

#### **PLANNING BOARD ACTION REQUESTED:**

Review the current procedure and determine if any changes to the process for receiving public input are desired.

##### **Suggested Motion:**

I move that the Planning Board change its public input procedure for community plans as discussed.

OR

I move that the Planning make no changes to the public input procedure for community plans.
