

PETITION TO SAVE SALUDA

NO OUTDOOR SHOOTING RANGE ON MACEDONIA ROAD

We, the undersigned, strongly oppose the creation by the Henderson County Commission of a training center and firing range for law enforcement personnel at **2823 Macedonia Rd, Saluda, NC 28773**. This land is adjacent to the pristine North Carolina Game Land, the Green River, and residential properties. The facility will disrupt wildlife, decrease home values, and undermine the tourism appeal of Henderson and Polk counties. It will also conflict with the hunting, fishing, kayaking, and other outdoor recreational activities on the Green River and in the Game Land. **DO NOT follow through with these plans.**

NO OUTDOOR SHOOTING RANGE ON MACEDONIA ROAD

We, the undersigned, strongly oppose the creation by the Henderson County Commission of a training center and firing range for law enforcement personnel at **2823 Macedonia Rd, Saluda, NC 28773**. This land is adjacent to the pristine North Carolina Game Land, the Green River, and residential properties. The facility will disrupt wildlife, decrease home values, and undermine the tourism appeal of Henderson and Polk counties. It will also conflict with the hunting, fishing, kayaking, and other outdoor recreational activities on the Green River and in the Game Land. **DO NOT follow through with these plans.**

Letter:

Greetings,

Save Saluda-No Shooting Range Here Please!

We are concerned that the outdoor shooting range could have a negative impact upon the quality of life for local residents and the environment. It could also be detrimental to our tourism and ecotourism-based businesses, reduce revenues to local shops and restaurants, and reduce property values. Please listen to your constituents why placing a shooting range in property in this location can destroy their tranquil way of life and impact Saluda's thriving tourism economy.

We are sure that once you understand the negative impact on this town, you will reconsider this decision.

Thank you for listening.

Cynthia Farris-Kelly	Travelers Rest, SC	2018-04-12	I'm signing because as a resident of the Saluda community, I feel that our wild lands need to be preserved. I support law enforcement but there are numerous existing training facilities already.
Judy Ward	Spartanburg, SC	2018-04-12	I'm signing because I enjoy the quiet of the outdoors when I'm outside my home or while hiking, biking and fishing in the Green River game lands. Listening to repetitive gunfire which can be heard for miles for the rest of my life in Saluda is a terrible thought. Please do not bring this facility to my backyard.
Ryan Roberts	Saluda, NC	2018-04-12	The Green River Gamelands is a fantastic resource for us locals and here just because of the Green River and the remote feeling you can have in the gamelands though you are close to both Saluda and Hendersonville. Many of our employees frequent the Gamelands thousands of paddlers, hunters, hikers and anglers frequent the gorge every year. If the experience of the gamelands is impacted it will not only affect one of my favorite places to visit and explore but it will have financial impact on the surrounding communities and businesses from lost tourism dollars. People do not want 100s or thousands of gunshots ringing out daily during their wilderness experiences. People do not want thousands of pounds of lead leaking into their watershed. All that said putting a noise polluting and environment damaging facility next to a designated wild gamelands area is wrong.
Shane Benedict	Flat Rock, NC	2018-04-12	I love my river. Keep it wild!!! The Green River is a pristine area where home and landowners work hard to protect its natural beauty and habitat. A training facility such as this will disturb a unique area that draws people to the area. They are literally shooting themselves in the foot! There are other training facilities in western North Carolina and a training center already located in Henderson County. Before spending millions of dollars, and negatively impact a protected area, please explore other options!
Michael Allison	Acworth, GA	2018-04-12	This is supposed to be a historic town. Bringing all this outside stuff mars the beauty of it. This only makes people think of guns more than they do. Not put it on policemen having a place to practice, have they not had a place to practice before? Tsk tsk. I have a place in saluda 2nd Home and am in the middle of guns and violence where I live here. I've always loved saluda because of the friendly atmosphere. This would change it for me.
Terrri Arrington	Saluda, NC	2018-04-12	We have a vacation home in Saluda and love the beauty and quietness.
Betty Armstrong	Gilbert, SC	2018-04-13	Build an inside range. Just as good.

I live 1 mile away and moved to this beautiful area for the quiet and natural beauty of the area. A shooting range has no place in this wonderful community and right next to the natural resources of the gamelands.

I grew up around here and everything is being developed. Leave Saluda alone. Do it in edneyville if you have to do it somewhere.

this action does not promote the natural resources of the area and can be performed elsewhere.

Lead Contamination????????????????

I do not want a gun range near were I use public lands to paddle. Not only will the noise disrupt the peaceful sense of being in the woods, the lead in bullets can greatly harm the ecosystem. By having lead in the areas around a river basin it directly threatens the ecosystem to contamination by runoff.

it is not a necessary. And a waste of tax dollars. Can the sheriff department can fund it without any tax money we can talk

This expenditure of tax revenue would not reflect my values. Placing a facility for tactical police training next to the Green River Gamelands is a grossly shortsighted, and an unfortunate reflection of the underlying values held by current commissioners and developmental engineers for Henderson Cony.

This doesn't sound great. Too pretty and wild of a place to have something like this. Give it a signature. It's easy.

I know how important paddling is to you! Hope this helps! My wife and I are small business owners in Saluda/Hendo that will be adversely impacted by the development of a large training facility such as this. Our business operates on the premise of the solace that the Green River Game Lands Provide. Making this worse, there are already options for this kind of training available. I don't want someone's quest for a personal legacy to result in a giant scar near or public lands.

This natural area is if so much more value to our state if protected from noise pollution, lead pollution, and traffic. Please no shooting range next to our natural lands

Saluda is not the place for this. There is so much more land in Henderson county that is not close to the populated areas that people enjoy for solace.

The sheriff Dept don't need this huge tax burden on property owners; the first thing commissioners do is vote in tax increase to pay for mess like this that only!!!. The sheriff Dept. Benefits

Debra Stephens	Zirconia, NC	2018-04-13	An indoor range where lead mitigation can prevent environmental contamination and noise pollution would be acceptable. Even so there is no need for the purchase of 99 acres nor the construction of a 6000 square foot facility nor a location for military vehicle training. If training were a concern for McDonald he would not have discarded the years of valuable education, experience and training of 50% of the Sheriff's office personnel during his tenure. Nor would McDonald have demoted long established personnel, which he admittedly did for no reason, if he valued experience and training. Those type of actions are demoralizing to personnel and undermine law enforcement effectiveness.
Rick Thompson	Roswell, GA	2018-04-13	I love it like it is.
James hrnyshyn	saluda, NC	2018-04-13	The project is not compatible with the current economic foundation of the area.

Becky Ledbetter	Fletcher, NC	2018-04-13	Saluda is representative of a peaceful oasis of a small town. A shooting range has no place here. The site for this range endangers wildlife habitat and the adjacent Green River. Recently Jackson Co. was having to spend \$500K to remove lead contamination left from just such a facility. The Green River Gamelands are utilized by hunters, hikers, and kayakers. This pristine area is no place for a law enforcement facility. This third attempt at trying to push this project forward is indicative of the sheriff's political agenda and not the will of the people in the community.
Derek Malnate	3574 Macedonia Rd, Saluda, NC	2018-04-13	Lets keep this beautiful community peaceful and quiet
Joshua Arntzen	Acworth, GA	2018-04-13	People eat the fish from this river!! We don't want lead poisoning.
Tara Scarborough	Mason, OH	2018-04-13	Saluda is a wonderful, quaint rural mountain town. I support keeping it that way by preventing development on the game lands that surround it.
Alex Harvey	US	2018-04-13	I am a landowner and hope to retire here one day. The 100 acre tract in question is wild and 100% of the land drains into designated Wild Trout Waters. This is not a place for an outdoor range. The Foothills Range in Shelby, which is on a flat 83 acre tract next to a landfill, was originally intended for law enforcement training and public use. After reports of errant bullets landing on nearby properties the facilities had to be modified so that it is no longer

from. No private citizen can use this...I am tired of paying for these ridiculous projects like this that they have tried twice already and not succeeded. Lets make it three times!!!!.....

<p>usable by the Sheriff. His department now trains elsewhere. A lesson to be learned Henderson County. There are multiple state of the art facilities 3 hours away from Hendersonville. Samarca and is a 430 acre facility with dormitories and a 300 yd outdoor live fire range. GTI, which is next to the Savannah Nuclear site, has a 200,000 sf indoor range for LEA close combat training and a 800 yd sniper range. GTI accepts surplus equipment and seized assets in exchange for training time. Let's keep Henderson County serene and beautiful and use the money s</p>	2018-04-13	Fairview, NC	Barbara Ehrike
<p>I live off Macedonia I dont want the noise or traffic!</p>	2018-04-13	Saluda, NC	Lydia Cardinal
<p>The Green River Gorge is magic. The water quality is incredible, the Saluda nearly three years ago from a metropolitan area and never looked back. Building a small business teaching people to kayak means spending a lot of time on the river, sharing the incredible gift that is the Green River with people who come far and wide to experience it. Nature transforms us. I can't tell you how many times the sight of a kingfisher or heron has stopped a person in their tracks and transported them, filling them with wonder and sticking with them long after we take off the river and return home. I am firmly against this project for the damage and destruction it will impose on wild land and its inevitable perversion of the Green River Gorge. Additionally, the County has failed to endeavor in to basic problem solving through much more readily available solutions made possible by existing infrastructure. This project would be a colossal, irreparable mista</p>	2018-04-13	Cleveland, TN	Tony Paterson
<p>It's my understand that there are multiple options for this type of training elsewhere and close by, therefore it seems very unnecessary to disrupt such a pristine area and state treasure like Saluda or its game lands please protect this area!</p> <p>Another example of Hendersonville crapping on Saluda. They're not considering how many residences here shop in Hendersonville and pay taxes in Henderson County. This range is not needed anyway. They have options open for training in other nearby facilities. It's an ego thing for the Sheriff's department. I served in the US Army and know that there isn't anyway that noise will not be a factor. The biggest factor for me is the loss of habitat and damage to the gorge. Spend the money on school safety.</p>	2018-04-13	Spartanburg, SC	William Jameson
<p>I really wonder if we need the shooting range at all. I think it should be something done by western North Carolina as a whole or the state, if it is a need. I don't think Henderson Co. needs their own shooting range or needs to pay for this shooting range alone. I live in Hendersonville.</p>	2018-04-13	Hendersonville, NC	Jocelyn Tolleson
<p>We do not need to turn our neighborhoods into war zones. An outdoor shooting range is inappropriate in any of our communities (not Edneyville, not Hendersonville, not Saluda) and should be stopped in its tracks NOW. Noise pollution, waste pollution, its effect on the local economy all make it clear that this should not go forward.</p>	2018-04-13	Hendersonville, NC	David Weintraub

Svend Deal	Zirconia, NC	2018-04-13	There is already a very nice public range on this side of Shelby. In addition, there is a very advanced private range and training facility near Ellenboro called the Tactical Farm. We don't need to spend taxes on something the private sector is taking care of.
Sandra Fowler	Charleston, SC	2018-04-13	This project is completely antithetical to the character of the town of Saluda, even more so with a proposed location next to the Green River Gorge and Gamelands. Sandra Fowler Church Street, Saluda, NC
John Williams	Saluda, NC	2018-04-13	Facility is unnecessary and a waste of money. The choice of the site is politically popular with the Henderson County Commissioners, due to the small number of voters in this area. Many neighbors who would be affected live in Polk County and can't vote the arrogant strategy! The potential negative impacts on humans and the natural world far outweigh the purported benefits to society that would be met by this facility. Go build it in the Sheriff's neighborhood! If I were a resident of Henderson County, I would be outraged by the waste alone.
Christina Borderer	Gastonia, NC	2018-04-13	I am a regular visitor to Saluda and Hendersonville. And you can count me OUT if this goes ahead.
Sarah Arvidson	US	2018-04-13	I use the Green River Gamelands for recreation; I would prefer not be surrounded by the sounds of gunfire. I would also prefer not to have the unspoiled beauty of the Gamelands become spoiled. Also, how about we have police practice NOT firing their weapons? I'm pretty sure that we've all figured out by now that the American police force is really quite good at shooting people.
Emily Lamar	Saluda, NC	2018-04-13	I'm signing because I love the community I grew up in. I don't want to see something take away from the tranquility that Saluda has to offer.
Sarta Sigmon	Hendersonville, NC	2018-04-13	What part of NO do the commissioners not understand. Our community does not want a shooting range!!!

Michael Tuczynski	Leland, NC	2018-04-13	We moved to Saluda after vacationing here for many years because of the quite, peaceful tranquility of the area. This range would destroy everything that Saluda is and stands for.
Alan Nguyen	Reno, NV	2018-04-13	I like guns, they're fun to shoot and interesting to see how they work, however ranges should be in isolated areas away from town to not disturb the peace.
Pam Nelson	Greensboro, NC	2018-04-13	I love Saluda! Such a beautiful quiet town. No Shooting Range should be allowed!!!

Linda Grup	Hendersonville, NC	2018-04-13	Saluda has historically been a place of healing; a sanctuary. Let's keep it that way
Kristina Harvey	US	2018-04-13	They're PLENTY of other places to shoot your guns. There are shooting ranges in Hendersonville. No need to take away the tranquility of that gorge by adding ANOTHER range. Don't get me wrong, I love my guns, and I'm all for dialing in your marksmanship, but not the Green, PLEASE.
Donna McCall	Flat Rock, NC	2018-04-13	An additional shooting range is unnecessary when the justice center is nearby.
Charles Stewart	Hobe Sound, FL	2018-04-13	Commissioners are taking the easy way out. Their attitude is NIMBY (not in my backyard)
Marshall Lawson	Saluda, NC, NC	2018-04-13	Representative Grady: The planned shooting range near the pristine mountain town of Saluda, NC, is outrageous!!!! The noise pollution, a nuisance to residents miles away. Andy what about the location next to a wildlife preserve? It makes a mockery of the State's alleged commitment to wildlife and open spaces. Any such range (to the extent it's actually needed - highly dubious) should be indoors and located within an already developed area, not near a small, peaceful mountain town like Saluda and surrounding hamlets which are a mecca for tourists and residents seeking a respite from the noise and pollution of metropolitan areas. The impacts are completely unacceptable to property owners and vacationers. On a related note, how would these council members appreciate a government body locating such a facility near their homes? The answer is, they wouldn't, and they wouldn't accept it there. They want it in someone else's backyard in a par
Devon Kersten	Richmond, VA	2018-04-13	I grew up on Macedonia Road in Saluda, NC, and can think of no better way to damage that beautiful, tranquility than to shove a shooting range into my former mountain home. This will cost the residents, businesses, and tourist industry far more than it will bring in. Please rethink this and do what's right for the community. No shooting range.
Deborah Brown	Miami, FL	2018-04-13	I'm signing because I want gun control not a shooting range by my house
ANNE W. RAYFIELD	DALLAS, NC	2018-04-13	I and so many love the Green River Gorge and its peace. Do not target your natural resources, which are probably your very best assets.

Landen Gailey	Hendersonville, NC	2018-04-13	We already have training facilities in this county, and there is no need to further tax the taxpayers to build this, let alone in a somewhat pristine area with camps and wildlife habitat nearby!
Jill Wrenn	Travelers Rest, SC	2018-04-13	I spend a great deal of time hiking and kayaking in the Green River Gorge. One of the many things that attracts me to that area is the wildlife and natural beauty. I am concerned that the noise and environmental impact of this proposed training center will adversely affect the wildlife who live in the area surrounding the Green River Gorge.
Christian Buttner	Wellford, SC	2018-04-14	Bad idea. Wrong place. Both nature and local economy will be impacted.
Clint Noiseau	Orlando, FL	2018-04-14	It's an election-year push for a resume bullet point, and at significant expense, both financial and otherwise, to Henderson County taxpayers and the citizens of Saluda.

Elizabeth Lawson	Columbia, SC	2018-04-14	It is not acceptable that this will be allowed to happen to beautiful Saluda. These decision makers should put this monstrosity in their own backyards not dump it in beautiful Saluda! The lack of appreciation for this charming area and its citizens and visitors that the Henderson County Board displays by considering for one moment a shooting range, disrupting the peace so many people from so many places come here to find is just unimaginable.
Susan Casey	Saluda, NC	2018-04-14	I have lived here 38 years and owned a business in Saluda for 20 years. This shooting range would have adverse effects on quality of life for the residents in the immediate area as well as negatively impact our community economically and environmentally.

I'd rather see my tax dollars go to a children's home with plenty of food, clothing, and living essentials for them. I don't think \$22 million would even be needed. Starting with the real issues for our community is a much better allocation of funds.
William Ashton	Hendersonville, NC	2018-04-15	Saluda is not the right choice for a shooting range. It could very well destroy the town due to its negative impact. There seems to be plenty of locations near the existing training center of 64.

PETITION TO SAVE SALUDA

NO OUTDOOR SHOOTING RANGE ON MACEDONIA ROAD

We, the undersigned, strongly oppose the creation by the Henderson County Commission of a training center and firing range for law enforcement personnel at **2823 Macedonia Rd, Saluda, NC 28773**. This land is adjacent to the pristine North Carolina Game Land, the Green River, and residential properties. The facility will disrupt wildlife, decrease home values, and undermine the tourism appeal of Henderson and Polk counties. It will also conflict with the hunting, fishing, kayaking, and other outdoor recreational activities on the Green River and in the Game Land. **DO NOT follow through with these plans.**
