

Dear Michael Edney, Chairman, Henderson County Board of Commissioners,

We are pleased to present you with this petition affirming this statement:

"The Balfour Parkway is a \$154 million dollar project that is not needed and will destroy homes, churches and communities. We, the citizens, urge our leaders to act now to stop the proposed Balfour Parkway NCDOT STIP Project No. R-5744!"

Attached is a list of individuals who have added their names to this petition, as well as additional comments written by the petition signers themselves.

Sincerely,
Cindy Lemon

why not take that money and maintain the existing roads and update neighborhoods that have no gas lines, no decent internet service, no sewer lines, pot holes everywhere. There are so many things that are more important then this highway.

We live in the projected path. Our land and the land of my relatives has been in the family for over 80 years. It is my father in law's livelihood to raise cattle, grow hay and be a responsible citizen to Henderson County. My wife and I are so torn for all the families and businesses that will be affected for a useless project. Destroying homes and land for a connector that could be resolved by other more practical meand, does not make sense. Please be compassionate and find other ways to make traffic more accessible. I feel that this project will not divert traffic from four seasons in the way that DOT is trying to sell it. 191 doesn't get that much traffic, and improving Berkley & Signal Hill Rd's would be a much less invasive and more economical way to divert traffic from Asheville Hwy. to 64 at I-26. This proposed road is hurting people's property values and there sense of security, not to mention the amount of property taken off the tax roles, which will most likely result in a tax increase to make up the difference. Therefore I am **TOTALLY OPPOSED** to the Balfour Parkway.

The area where this needed parkway would be built is quite changed from this idea first arose 10 years ago. Developments such as the Boulders were barely underway., for example. Building a parkway through the Boulders community, would destroy an area of new homes that provides significant tax revenue. Those homes not destroyed would be tremendously devalued for being on the edge of the parkway ; it's ironic that an area where conservation is strongly practiced could soon be overrun by cement and traffic. The loss to the Boulders residents is just one of many examples why this parkway is misconceived and poorly planned.

The Balfour Parkway is an unnecessary encroachment on so many lifetime property and business owners who are being forced out of their homes and property--many of whom depend on it for their income. To offer them only tax value for this property is another travesty of their rights and causes a disruption of their lives that should never happen in our community of wonderful people who work hard and have owned much of this property for generations. As children of apple farmers (who are not affected by this project) we are opposed and horrified by the way these people are being treated. I-26 widening and more exits added between Hendersonville and Fletcher would have a much greater impact on traffic issues. We oppose this destruction of our beautiful community!!!

This four-lane highway ("parkway" seems a misnomer) appears to be designed with little, if any, respect for the context/community in which it is to be constructed. In addition, the stated objective is immediately questioned and under scrutiny, as it seems without adequate and appropriate foundation. In the good North Carolina tradition: NIP IT. . . NIP IT IN THE BUD!!!! (I'm sure Barney Fife would readily agree!)

This is a destructive plan that will cause major harm and disruption to an area housing many small communities, several with over 55 populations. We strongly oppose these changes. We have a beautiful neighborhood, one of your proposals have it coming through neighborhood and destroying \$300,000 homes and the parkway would touch our driveway. We have bears and white squirrels. This is ridiculous bc there is traffic twice a day for 30 minutes. The schools could add more of a driveway and save the whole problem rather than destroy homes and families.

I reside in CO but Hendersonville is home, due to my accent I have a lot of inquiries about where I'm from. The majority of people that know the area speak of driving the back roads and speak of the natural beauty. The curved and narrow roads are often mentioned due to the fact here on the plains of CO the roads are all straight and provides the passage to be made at speeds of 65 and 70. Most people that visit NC do so expecting a slower pace of life and I think they would be greatly disappointed if visiting was no different than where they live.

The Balfour Parkway will NOT alleviate traffic volumes through Hendersonville as the vast majority of that traffic is LOCAL. I have transited east to west a number of times going to medical offices and see relatively few cars and trucks continuing on. Gone are the homes, businesses, curves, cropland and woods that made the trip interesting & colorful. Now it's long straight boring miles that encourage speeding while signed for 55 mph. The proposed parkway will destroy neighborhoods, communities and lives, and forever change the character of northern Henderson County. It is already having severe impact in the irresponsible way it has been handled and by not informing the public throughout the process. Moreover, the routes proposed will not accomplish the intent and purpose. If Henderson County wants to be citizen friendly and progressive it should look at other low impact alternatives and solutions to growth.

Please use an alternative route that doesnt tear down long established neighborhoods. The wise choice is making/enforcing laws for trucks such as no trucks on certain roads stop allowing tractor trailers yo bypass the weigh station etc

This project is 100 percent not necessary, is not wanted and a complete waste of tax payers' money. It will uproot hundreds of Henderson County residents, destroy neighborhoods, devastate the community and undermine the reputation and charm of Historic Hendersonville. The tourism industry, one of the current driving economic forces in the area, will take a real hit and never recover.

This 154 million dollar project will do nothing to facilitate traffic and eleminate the issues on Four Seasons Blvd. It will only destroy our beautiful country side, destroy homes, families, churches. It will only add to pollution. I ask that our Commissioners vote NO to this Balfour project.

Stop the Balfour Parkway project NOW. This unnecessary project will harm human beings whou are Henderson County taxpayers and voters. It will also harm the environment of Western NC.

The Balfour will not only ruin the lives of hundreds of people, many of whom are retirees, but it is also completely unnecessary and will not solve any of the traffic "problems" for which it is intended.
