

Locals who oppose the proposed development of 1200 homes at Tap Root Dairy Farm site

As a resident of Henderson County, I oppose the proposed development of an additional 1200 homes where Tap Root Dairy Farm is in Fletcher, NC. Development in Henderson County has tremendously soared without consideration to our current infrastructure. I26 is a perfect example of congestion. For years, concerns have been expressed by many about the congestion on I26 in Henderson County and the response has been that is the NC DOT responsibility. Adding 1200 homes to an already overcrowded road, especially knowing that County Commissioners and developers have absolutely no control over our roads is irresponsible.

- Traffic on Butler Bridge, Rugby Rd and the intersection of 191, highway 280, Hendersonville Rd and I26 during peak hours already experience daily congestion.
- There is severe traffic hindrance as well as a genuine concern for safety especially during school drop and pick-up times at Glenn Marlow Elementary, Rugby Middle and West Henderson.
- There are several neighborhoods that merge into GME/Rugby/West school districts and if the county commissioners were to proceed with this unfavorable development, the impact to the schools would need to be addressed. The county would need to secure funding to build more schools due to these schools are at capacity as well as consider re-districting.
- The county will need to secure funds to afford more county personnel in emergency management, law enforcement, and other mandated government services.

We, the undersigned, hereby petition to Henderson County Commissioners to protect the integrity of our community and VOTE AGAINST approving this development.

Comment

I don't want to hear construction for 10 to 12 years. I also don't want the increased amount of traffic this will cause. I also don't want to see the beautiful Farmland disappear and be crowded with a bunch of homes, Apartments, and Townhomes.

I'm signing because I live on Butler Bridge Road. This road cannot handle that amount of traffic! Our schools are already at capacity or over. Our area is too saturated as it is!! My kids go to Glenn Marlow and vehicles traveling by the school already disobey the school zone speed limits. Add 1200 to that and you get the picture.

The schools and local roads cannot handle the addition of a subdivision of this size.

Glenn Marlow is such a wonderful school, but it is at capacity. Please don't overcrowd our schools. This could have such a negative impact !! Butler Bridge physically cannot handle this increase in traffic. A smaller, development would be welcomed.

Glenn Marlow is such a wonderful school, but it is at capacity. Please don't overcrowd our schools. This could have such a negative impact !! Butler Bridge physically cannot handle this increase in traffic. A smaller, development would be welcomed.

1200 homes is ten times too much. Unless your going to cut my property taxes by tenfold, this needs to be Butler Bridge Rd. cannot handle the increased traffic and our schools are already at or over capacity.

Henderson County growth needs to slow down

The road infrastructure is not adequate for this proposed over development.

Butler Bridge Rd and it's connecting roads cannot support the amount of additional traffic this development 1,200 homes is too large of a development for this area; our roads and schools can't handle it! Development is fine as long as it is reasonable and responsible.

I oppose to this greedy & irresponsible decision. The roads are so difficult to travel on. No more development until the roads can handle that. It is getting like huge cities. Rev Jacquiwww.ncminister.com

I don not live in this immediate location but just across Hwy 25. My family has lived in this house for about 20 years. Throwing up housing willy-nilly is irresponsible at best. Someone's design for making money will be damaging to more than I can list here. To many people, I don't have the solution, but this idea needs more Stop destroying our county! Henderson county should buy the farm and make it a community garden.

That amount of build up will increase the need for more power thrown on the grid which will ultimately lead to larger power towers popping up further ruining the beauty of our neighborhoods. More paving will just continue the ruination of our countryside by turning it into another concrete jungle. Where does it end?

Enough is enough!

I do not want an over crowded school for my son. This is a potential traffic hazard for everyone.

I'm concerned about our schools and what this vast influx would do to our school system!

Butler Bridge is busy enough as it is! Glenn Marlow is at capacity and I don't agree with any ideas about splitting up grade levels amongst 2 schools. The fact that anyone thought another huge neighborhood on a road that floods every time it rains feeding into a school that is crowded already SHOCKS ME. This proposed neighborhood Infrastructure is a serious issue. No plans to fix the already congested roads. Fix the infrastructure first and then you might have people on board.

Loosing too much farm land

Infrastructure!!!!There isn't 1/2 of what we need! All development should be halted until roads are widened!

I do not want any more development in my area!

There is already too much traffic on our roads. Congestion is terrible at times

As a emergency responder the infrastructure can't handle another 1200 homes. More traffic means more wrecks. More homes people that live here can't afford mean people moving here and the schools and roads can't support what is here already.

We are not able to sustain the traffic nor the increase in students at Glen Marlowe.

We need improved roads, not more homes!!

The schools, roads, and existing infrastructure can not handle an influx of that many people. The schools in the district are becoming overcrowded as is without a 1200 home development.

We don't need no more apartments or condos

The proposed development is less than 1 mile directly off the end of the runway of the AVL airport. It is a bad idea to have a residential development that close. There is no amount of insulation that can quiet the sound of a jet flying over your house 500 feet away and no amount of complaining will stop the airline's midnight arrivals. Normally I welcome development as it does wonders to the local economy. Not this time.

Enough growth already

The highways cannot handle more development and the school does not need additional families

There is no infrastructure to support a project this big. We already experience water issues due to overcrowding.

While growth and change are great things and can lead to wonderful communities, this needs to be held back until our schools, roads, and town are prepared for the impact. Our schools are already over crowded, roads are dangerous because of the lack of planning for traffic, and police and emergency services over ran. This has to Because we need to leave some stuff alone.

No plan to help solve over crowded schools and that road is a dangerous nightmare as it is already.

I like the place way it is

There are too many people in the area already and property taxes just keep going up!!!...this last evaluation was a bunch of crap!!!..... No!! They just want more money in taxes!!!!

Do not need this developmenon on Butler Bridge. Too much fractionally road and schools will be overcrowded.

Think about what you are doing to our community. Stop this project!!!!

I like the way it is now. Against this whole project.

It will overburden our current elementary school. It will create additional traffic headaches especially when Butler Bridges floods like we currently have. The DOT and the engineer stated they had performed a traffic study and looked at 8 intersections that would be impacted by this development. They didn't however study the intersection of Hwy 191 (Haywood Rd) and North Rugby Road. This intersection is the road in which high school and middle school students get to school. This intersection is already overburdened. They also didn't perform a traffic study at the entrance to Glen Marlow Elementary. This is also an overburdened traffic area that would become worse with the addition of so many houses. This places families and children at greater risk for traffic accidents. Also, the Asheville Airport Authority didn't recommend voting that close to the airport.

Schools can't handle the influx of increased numbers. Traffic is already crazy. It will become insane.

Traffic is already congested and terrible. I live on Butler Bridge Rd and traffic is unbelievable and adding 1200 new homes will make traffic even worse. Schools are already overcrowded which the county would have to somehow add more schools. Traffic is so bad in Fletcher that it takes an hour to get from the Farmers Market in Asheville if you are on the road after 3pm and it's worse if there is a wreck on 1-26.

To much is enough...

Traffic issues '

Mills River dos not have the infrastructure to support this rapid growth. We want to preserve the land and our small town! NO DEVELEMENTS!

The roads are bad enough with flooding and traffic.

There is no way our local infrastructure, schools, facilities or rescue services can withstand another 1200 houses!!!! What about little guys small school that he has been looking forward to attending? What about the ridiculous traffic already on Butler Bridge, Rugby, 191, Jefress or 280?! I am adamantly against this development and O cannot imagine any local residents or civilian tax-payers being on-board.

I'm signing because the growth in Henderson County is out of control. You are letting too many developers have carte blanche when it comes to density. You have made no plans for infrastructure, schools, roads etc in an already overpopulated area. What you are letting happen is unlimited and unconstrained growth!!!! Enough We do not want to rezone land so densely that we become Atlanta or even Asheville!

The size and scope of this development is unreasonable for our community. The proposed development is not a new neighborhood, rather a new town.

This is very poor planning for county development. Obligatory infrastructure does not exist.

I'm against the proposed housing development; from traffic to over crowding of schools and to current home values dropping... not needed in our area

The Traffic study estimates 20% of the additional trips added by the new development will be to/from the north via N.C. 280 and 18% to/from the south via N.C. 280. Additionally 2% will be to/from the West via Butler Bridge Rd. (I'm assuming this is traffic internal to Butler Bridge Rd. Adding those together that is 40% of the 8833 newly added daily trips that will be blocked when Butler Bridge Rd is flooded. I don't believe the traffic study takes this into consideration. Additionally the traffic study does not mention the impact to North Rugby Road as a route to Rugby Middle and West High Schools. What are the plans to widen North Rugby Rd from Butler Bridge to

The Traffic study estimates 20% of the additional trips added by the new development will be to/from the north via N.C. 280 and 18% to/from the south via N.C. 280. Additionally 2% will be to/from the West via Butler Bridge Rd. Adding those together that is 40% of the 8833 newly added daily trips that will be blocked when Butler Bridge Rd is flooded. I don't believe the traffic study takes this into consideration. Additionally the traffic study does not mention the impact to North Rugby Road as a route to Rugby Middle and West High Schools. What are the plans to widen North Rugby Rd from Butler Bridge to Haywood Rd?

Schools and roads should be addressed before a project of this size.

Overcrowded schools and roads....we need to put this development plan in the shredder. They will close the bridge over 26 for repairs, then butler bridge will flood...then we are stuck. Plus, developer continually says they will let someone else handle things...aka, we will make money, leave a mess and y'all can deal with it.

This is an insane idea!!! Has anyone involved in this project driven around this area in the morning and evening rush hour? The schools and roads are already over crowded. It seems infrastructure is non existent. The developers should be made to live here for a couple years to experience the madness of traffic, overcrowding of schools and problems of flooding at more times than we would like!! Come on, let's be reasonable do we really want to turn our beautiful area into another Atlanta or Asheville??? I know I don't!!!

Enough is enough with the overbuilding here.

I'm concerned with the community being able to handle a development of this size. The roads and schools are Too much congestion will develop in the area.

More beautiful farmland destroyed, the traffic issue !

Mary Ellen Quimby

The traffic is already crazy! And I hate to see our little town turning into over priced housing developments Congestion, habitat loss, unnecessary, impacts on the environment.

I'm signing because we have had it with uncontrolled rural sprawl . You people ok every house farm, multi mega condos and apartments and you have never ever addressed INFRASTRUCTURE , SCHOOLS, ETC..... HENDERSON COUNTY IS FULL !!!!! ENOUGH ALREADY ...

I am signing because my son goes to Glenn Marlow, we live in the area, and safety is important to us.

The roads and schools are already to capacity.

1200 homes at Tap Root Dairy Farm Site should be prohibited because of the traffic congestion that will be

We live in Haywood Knolls.. Totally Wasteful spending of the taxpayers monies.. It is not needed now or ever!

I don't want overcrowding of the already crowded schools in this area! 1200 homes is too much.
