Dear Amy:

The enclosed Work Plan Outline summarizes the format and major tasks and activities that we propose and will undertake to identify and adequately document the information necessary to complete the referenced *Detention Center Space Needs Assessment*.

I have attempted to organize the activities in the approximate sequence that they will occur. Of course, some activities may occur simultaneous with others. It is intended that the tasks and activities described provide the performance criteria for this agreement. In so doing, I acknowledge that I will comply with all relevant portions of Uniform Guidance and E-Verify provisions as required by the County.

At this time, I anticipate completion of the tasks identified in the enclosed outline, through Task 13, to take approximately 16 weeks. And, as noted, we will be available for a formal presentation of the report's findings to the Board of County Commissioners at such time as requested by the County.

Our proposed fee to produce this study and provide the County with the required and necessary documentation, including all identified tasks and on-site meetings, related project expenses for travel, communications, and document production is, and will not exceed, \$28,520.00. Services will be billed monthly based on the percent of work complete.

If the foregoing terms meet with the County's approval, please return one signed copy of this letter, at your convenience, to the address listed below.

I am very much looking forward to working with you and with Henderson County once again.
