

Valley Hill Fire & Rescue

Introduction / History

Valley Hill Fire & Rescue serves 48.47 square miles of district. This includes the county portion of our district (Valley Hill and Crab Creek), as well as the Town of Laurel Park and a large section of the Village of Flat Rock. Over the years there has been a lot of growth and change in the district and it continues to change yearly. Valley Hill continues to be as proactive as possible to respond to the increasing demands put on the fire and rescue services that we provide to our approximately 18,500 *customers*, that live within the boundaries of our district, not including the thousands of visitors, as well as automatic and mutual aid we provide to other agencies, both in county and out.

We currently employ 31 full-time and 20 part time (as needed-on call) employees, and have a volunteer staff of about 6, which includes active volunteers, and life members. This continues to make Valley Hill Fire & Rescue one of the larger combination departments in Henderson County. Current staffing allows us to staff 4 stations on a fulltime basis, (24/7) as well as providing quality jobs. *However, staffing does meet recommended staffing levels.*

We had our re-inspection from the Department of Insurance (DOI) in November of 2022 and are extremely excited and honored that we were awarded in March of 2023 our new rating of a **Class 2**. This new rating classification is just one example/measurement of the dedication the department takes to providing the best services possible to the citizens of the community, county and state.

Valley Hill ran a total of **2,200** alarms for service in 2022, without any major accidents or injuries. With our emergency call volume, non-emergency services requested, as well as our required ISO inspections and maintenance activities, it is imperative that we continue to monitor growth within the community, to be able to sufficiently meet the demands that continue being placed on local emergency services. This has been and will continue to be a challenge, especially with staffing and the increasing cost of salaries and benefits.

Budget workshops ensure that we stay on course with our annual operating budget, as well as review and update our short and long-range plans.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Valley Hill Fire and Rescue Department, Inc.

I have audited the accompanying financial statements of Valley Hill Fire and Rescue Department, Inc. (a nonprofit organization), which comprise the statement of financial position as of June 30, 2022 and 2021, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statement based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing and opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Valley Hill Fire and Rescue Department, Inc. as of June 30, 2022 and 2021 and the changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

VALLEY HILL FIRE AND RESCUE DEPARTMENT, INC.
NOTES TO THE FINANCIAL STATEMENTS

NOTE A-NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Valley Hill Fire & Rescue, located in Henderson County, serves a protection area of about 49.87 square miles, which includes the County portion of our district (Valley Hill community as well as Crab Creek), the Town of Laurel Park and a large portion of the Village of Flat Rock. The department continues to be as proactive as possible to grow with the changing demands of the fire and rescue services we provide to our customers.

Founded in 1956 by a group of concerned citizens, incorporated in 1958 as a non-profit corporation, many changes and much growth has occurred since those times. In addition to providing fire and rescue protection to the residents of our three districts, coverage is also provided to the Town of Laurel Park and mutual aid is given to the other county fire departments, Rescue Squad, EMS, and LEO agencies.

The Department has grown from a handful of volunteers with a few trucks to a combination paid and volunteer department with 28 full time and 21 part time (as needed/on call) employees and a volunteer staff of about 10 which includes life, active members. We have twenty-one pieces of apparatus housed within our four stations.

Beyond fire and rescue protection, Valley Hill Fire & Rescue provides other services. Public service requests which number approximately 250 each year. These request range from installing smoke and CO detectors. Car seat installations, CPR classes, Fire extinguisher classes and many more items.

Emphasis is given to fire prevention programs. Programs are given to schools, day care centers, civic organizations and to anyone making a request. On average about 150 programs are given per year.

Valley Hill Fire and Rescue has been a progressive fire department since its inception in 1956 and continues to be proactive and grow with the community's needs as needed.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

FASB Accounting Standards Codification

In June 2009, the Financial Accounting Standards Board (FASB) issued a statement titled *The Accounting Standards Codification and the Hierarchy of Generally Accepted*

Accounting Principles (ASC). This standard establishes FASB ASC as the source of authoritative United States accounting and reporting standards for nongovernmental entities. References made to generally accepted accounting principles (GAAP) in these statements refer to the ASC.

Financial Statements Presentation

On August 18, 2016, FASB issued ASU 2016-14, *Not-for-Profit Entities* (Topic 958) - *Presentation of Financial Statements of Not-for-Profit Entities*. The update addresses the complexity and understanding of net asset classifications, deficiencies in information about liquidity and availability of resources, and the lack of consistency in the type of information provided about expenses and investment return.

Information regarding its financial position and activities are grouped according to two classes of net assets, net assets without donor restrictions and net assets with donor restrictions. The two classes of net assets are defined as follows:

Net Assets Without Donor Restrictions

Net assets that are not subject to donor-imposed restrictions are those assets whose use is not limited or restricted by donors. They generally arise as a result of exchange transaction, contributions without restrictions, or contributions with restrictions whose restrictions have expired due to time and/or purpose requirements being met. These net assets may be used at the discretion of the Department's management and the Board of Directors.

Net assets without donor restrictions are classified as follows in the Statement of Financial Position:

Undesignated - Net assets without donor restrictions that are not subject to any stipulations or designations.

Net Assets With Donor Restrictions

Net assets that are subject to restrictions imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Department or by the passage of time. Other donor restrictions are perpetual in nature, where the donor has stipulated the funds be maintained in perpetuity.

Other donations are perpetual in nature, where the donor has stipulated the funds be maintained in perpetuity. However, these net assets with donor restrictions generally do not get reclassified since by definition, the donor imposed stipulation to

treat the contribution as with donor restrictions results in the restriction never expiring.

As of June 30, 2022, the Department held no assets with donor restrictions that must be held in perpetuity.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Fair Value Measurements and Disclosures

The Department discloses for each class of financial instruments the methods used and the significant assumptions made in determining the fair value of financial assets and/or liabilities. If there is a change in the valuation method, then the Department discloses both the change and the reason for the change.

The Department estimates the fair value of all financial instruments and those estimates do not materially differ from the aggregate carrying values of the financial instruments as recorded in the Statement of Financial Position.

The estimated fair value amounts have been determined using available market information and appropriate valuation methodologies.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Department considers all unrestricted highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Promises to Give

Contributions are recognized when the donor makes a promise to give to the Department that is, in substance, unconditional. Contributions that are restricted by the donor are reported as increases in net assets without donor restrictions if the restrictions expire in the fiscal year in which the contributions are recognized. All other donor-restricted contributions are reported as increases in net assets with donor restrictions depending on the nature of

VALLEY HILL FIRE AND RESCUE DEPARTMENT, INC.

the restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions.

The Department uses the allowance method to determine uncollectible unconditional promises receivable. The allowance is based on prior years' experience and management's analysis of specific promises made.

Property and Equipment

It is the Department's policy to capitalize property and equipment over \$1,000.00. Lesser amounts are expensed in the year of acquisition. Purchased property and equipment is capitalized at cost. Donations of property and equipment are recorded as contributions at their estimated fair value. Such donations are reported as contributions without donor restrictions unless the donor has restricted the donated asset for a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as contributions with donor restrictions. Absent donor stipulations regarding how long those assets must be maintained, the Department reports expiration of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Department reclassifies net assets with donor restrictions to net assets without donor restrictions at that time. Property and equipment are depreciated using the straight-line method over their estimated useful lives.

Contributed Services

No amounts have been reflected in the financial statements for donated services. The Department generally pays for services requiring specific expertise. However, many individuals volunteer their time and perform a variety of tasks that assist the Department, but these services do not meet the criteria for recognition as contributed services.

Contributions

Contributions received are recorded as net assets with donor restrictions or net assets without donor restrictions depending on the existence or nature of any donor restrictions.

Income Tax Status

The Department is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.
