Do any of the libraries have a security system or self-check kiosks in place currently, and if they do what type of technology is currently being used?	The library does not currently have a security system in place. The library does have existing self-check kiosks which includes Bibliotheque's Smartserve 1000D, running Liber8 software and Tech Logic combo stations running CircIT software as indicated on Page 9, General 1.6.
On page 25 of the RFP there is section regarding federal funds. Among the list of requirements is the Davis-Bacon Act (40 U.S.C. 3141-3148). We would like to confirm that this would not apply to this procurement, as it is not for the "construction, alteration or repair including painting and decorating of public buildings".	Correct. The Davis Bacon Act would not apply since the project does not deal with the construction, alteration, or repair of public buildings or public works.
