FOR IMMEDIATE RELEASE

Henderson County Hosts Virtual Public Meeting for Mud Creek Greenway Feasibility Study – November 2-16

HC-2020-40

Hendersonville, NC – November 2, 2020

Henderson County's Planning Department and AECOM (Planning consultant) are hosting a Virtual Public Meeting to share information and collect public feedback on preliminary greenway recommendations for the Mud Creek Greenway in Henderson County. The Virtual Public Meeting is being hosted on Henderson County's website from November 2, 2020 through November 16, 2020 and can be accessed via the County's main webpage at www.hendersoncountync.gov.

The Mud Creek Greenway will provide a necessary pedestrian and bicycle connection to people that travel the Kanuga Road corridor and will connect residents and businesses with the future Ecusta Trail. Several alternatives have been developed and will be presented at the Virtual Public Meeting. The preliminary greenway recommendations were developed as part of the Mud Creek Greenway Feasibility Study conducted by Henderson County and AECOM and includes on and off road options, as well as environmental and educational opportunities along the corridor.

At the meeting, attendees can view maps of the proposed alternatives and their respective cross sections, as well as a brief narrated presentation, and can download and review a comprehensive packet containing current plans for the Mud Creek Greenway. Attendees are encouraged to provide comments on the preliminary greenway recommendations by completing the survey provided on the website. Please contact the Henderson County Planning Department for language assistance needs.

Please join us virtually to learn more about the Mud Creek Greenway Feasibility Study!
