

## King Creek Tributary Sediment Removal

Site	Length	Description	Location (Lat,Long)
King Creek Trib	550	Sediment removal from stream. Access thru Flat Rock Park. Will work with Park to close trail section. Sediment must be taken offsite. Minor stabilization of straw and erosion control seeding needed on any disturbed areas. Care must be taken not to damage established walking trail.	35.291467, -82.435848

\*Site Visit: February 18, 2026 at 3pm. Meet at parking lot a The Park at Flat Rock, near playground.

Quotes due Feb 24, 2026 at 5pm.
