

STATION 3: INTERACTIVE MAPPING

Look at this overall map which breaks the study area onto four (4) separate maps, labeled A, B, C, and D. If you’d like to start with where you live, first locate the larger map that includes your community to orient yourself and begin the exercise. Each of the larger maps is labeled with A, B, C, or D.

You can provide input to indicate what you want to see for recovery by placing a sticker at a specific location on the map. Then write down on a Post-it Note any details associated with the sticker placed on the map. You can then move to another map if you’d like. The staff in the blue-colored lanyards can guide you through this mapping exercise.

MAP A | GERTON

05001,000

Feet

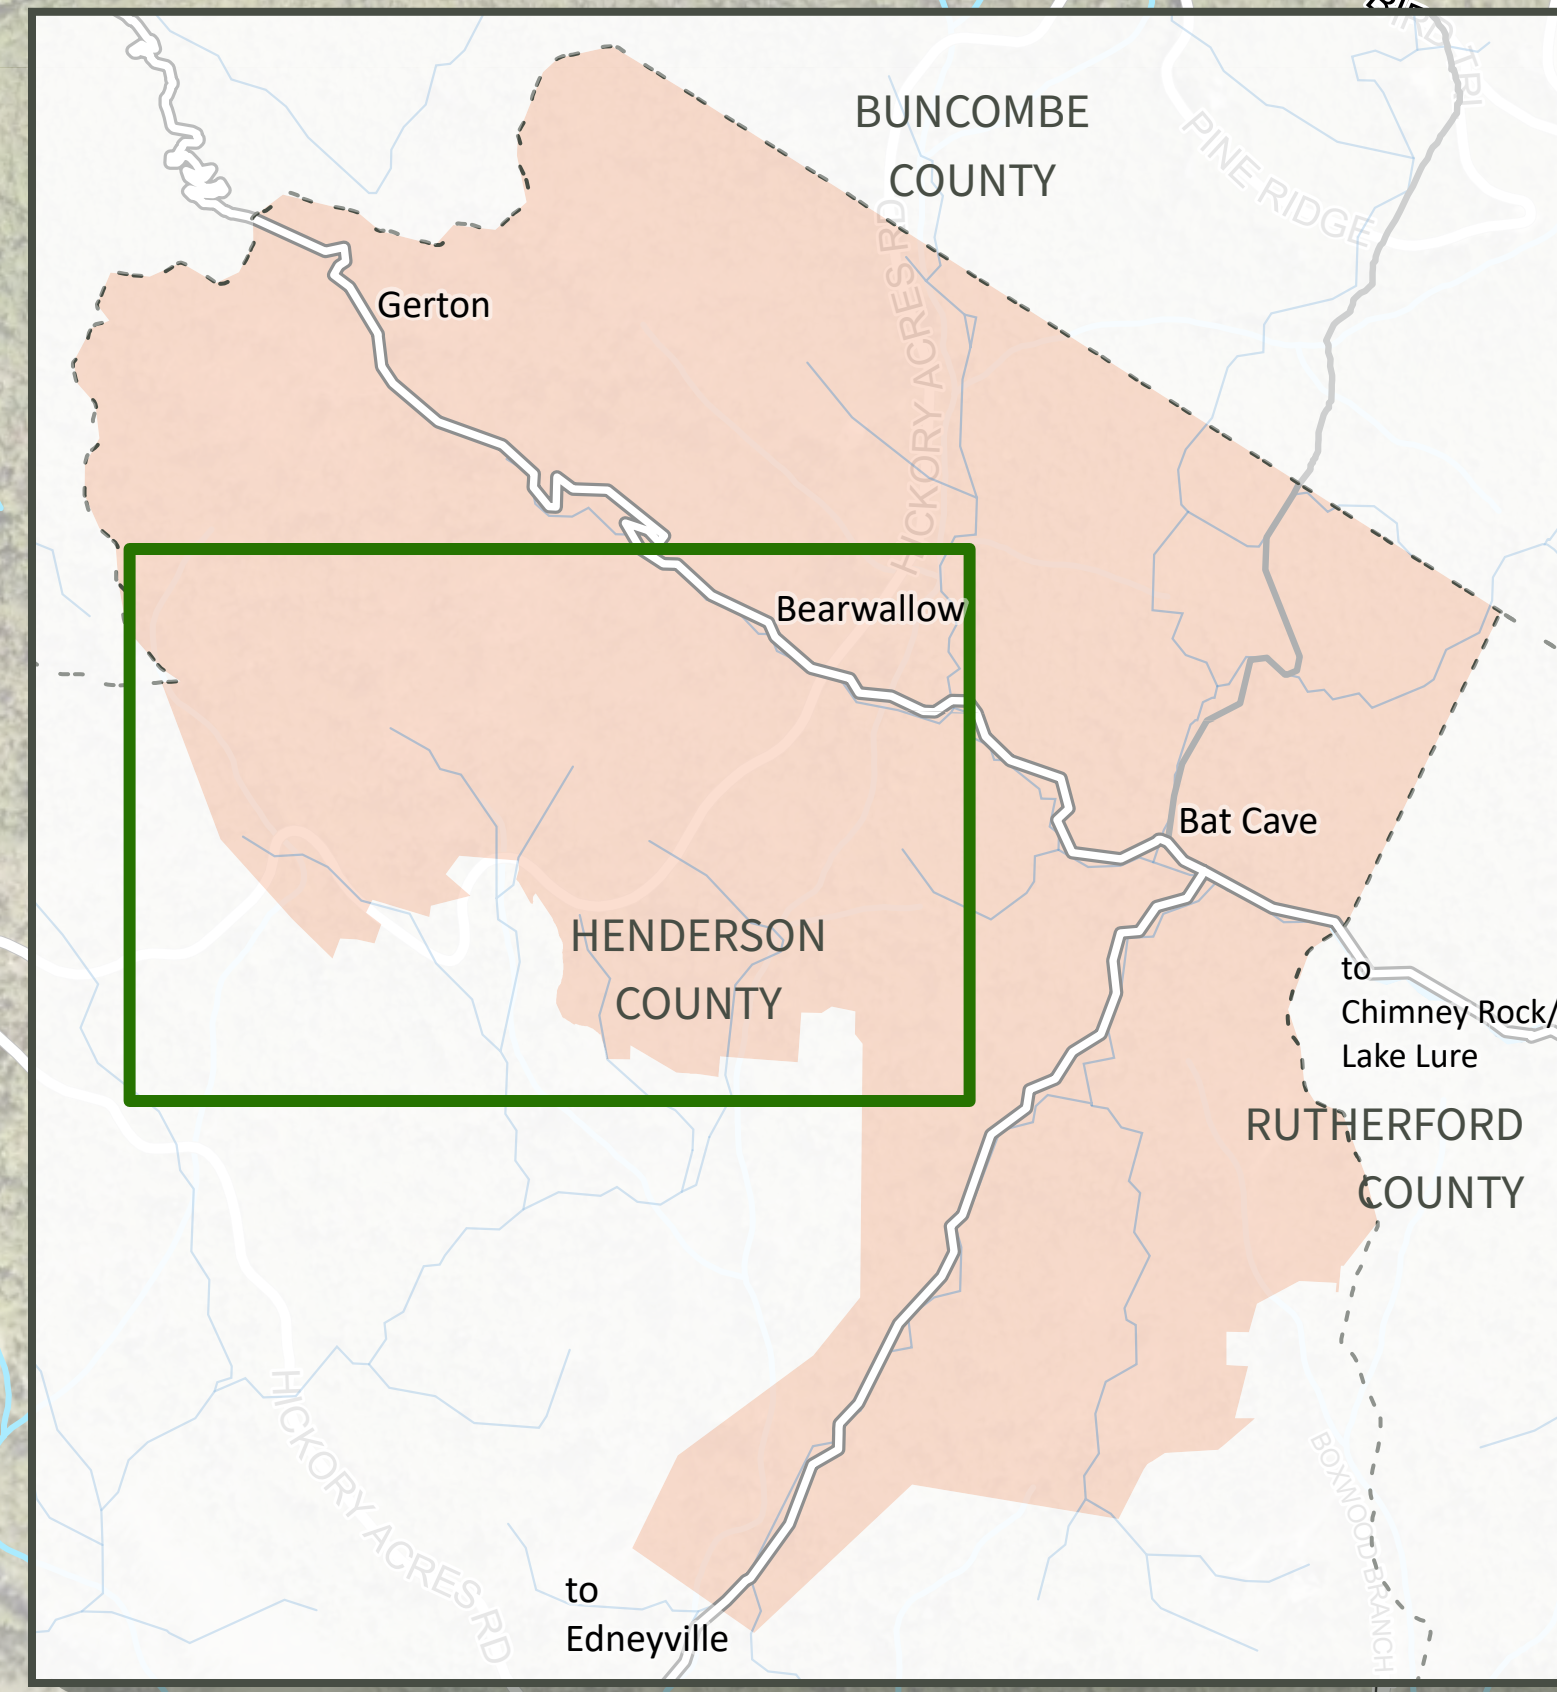

LEGEND

- Planning Area Boundary
- Conserved Land
- Conserving Carolina Land
- Commercial Zoning

Flood Hazard Data:

- 1% Annual Chance Flood Hazard (100-Year Floodplain)

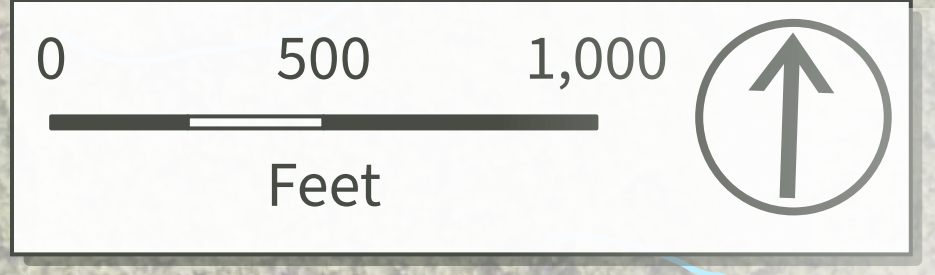

LEGEND

- Planning Area Boundary
- Conserved Land
- Conserving Carolina Land
- Commercial Zoning

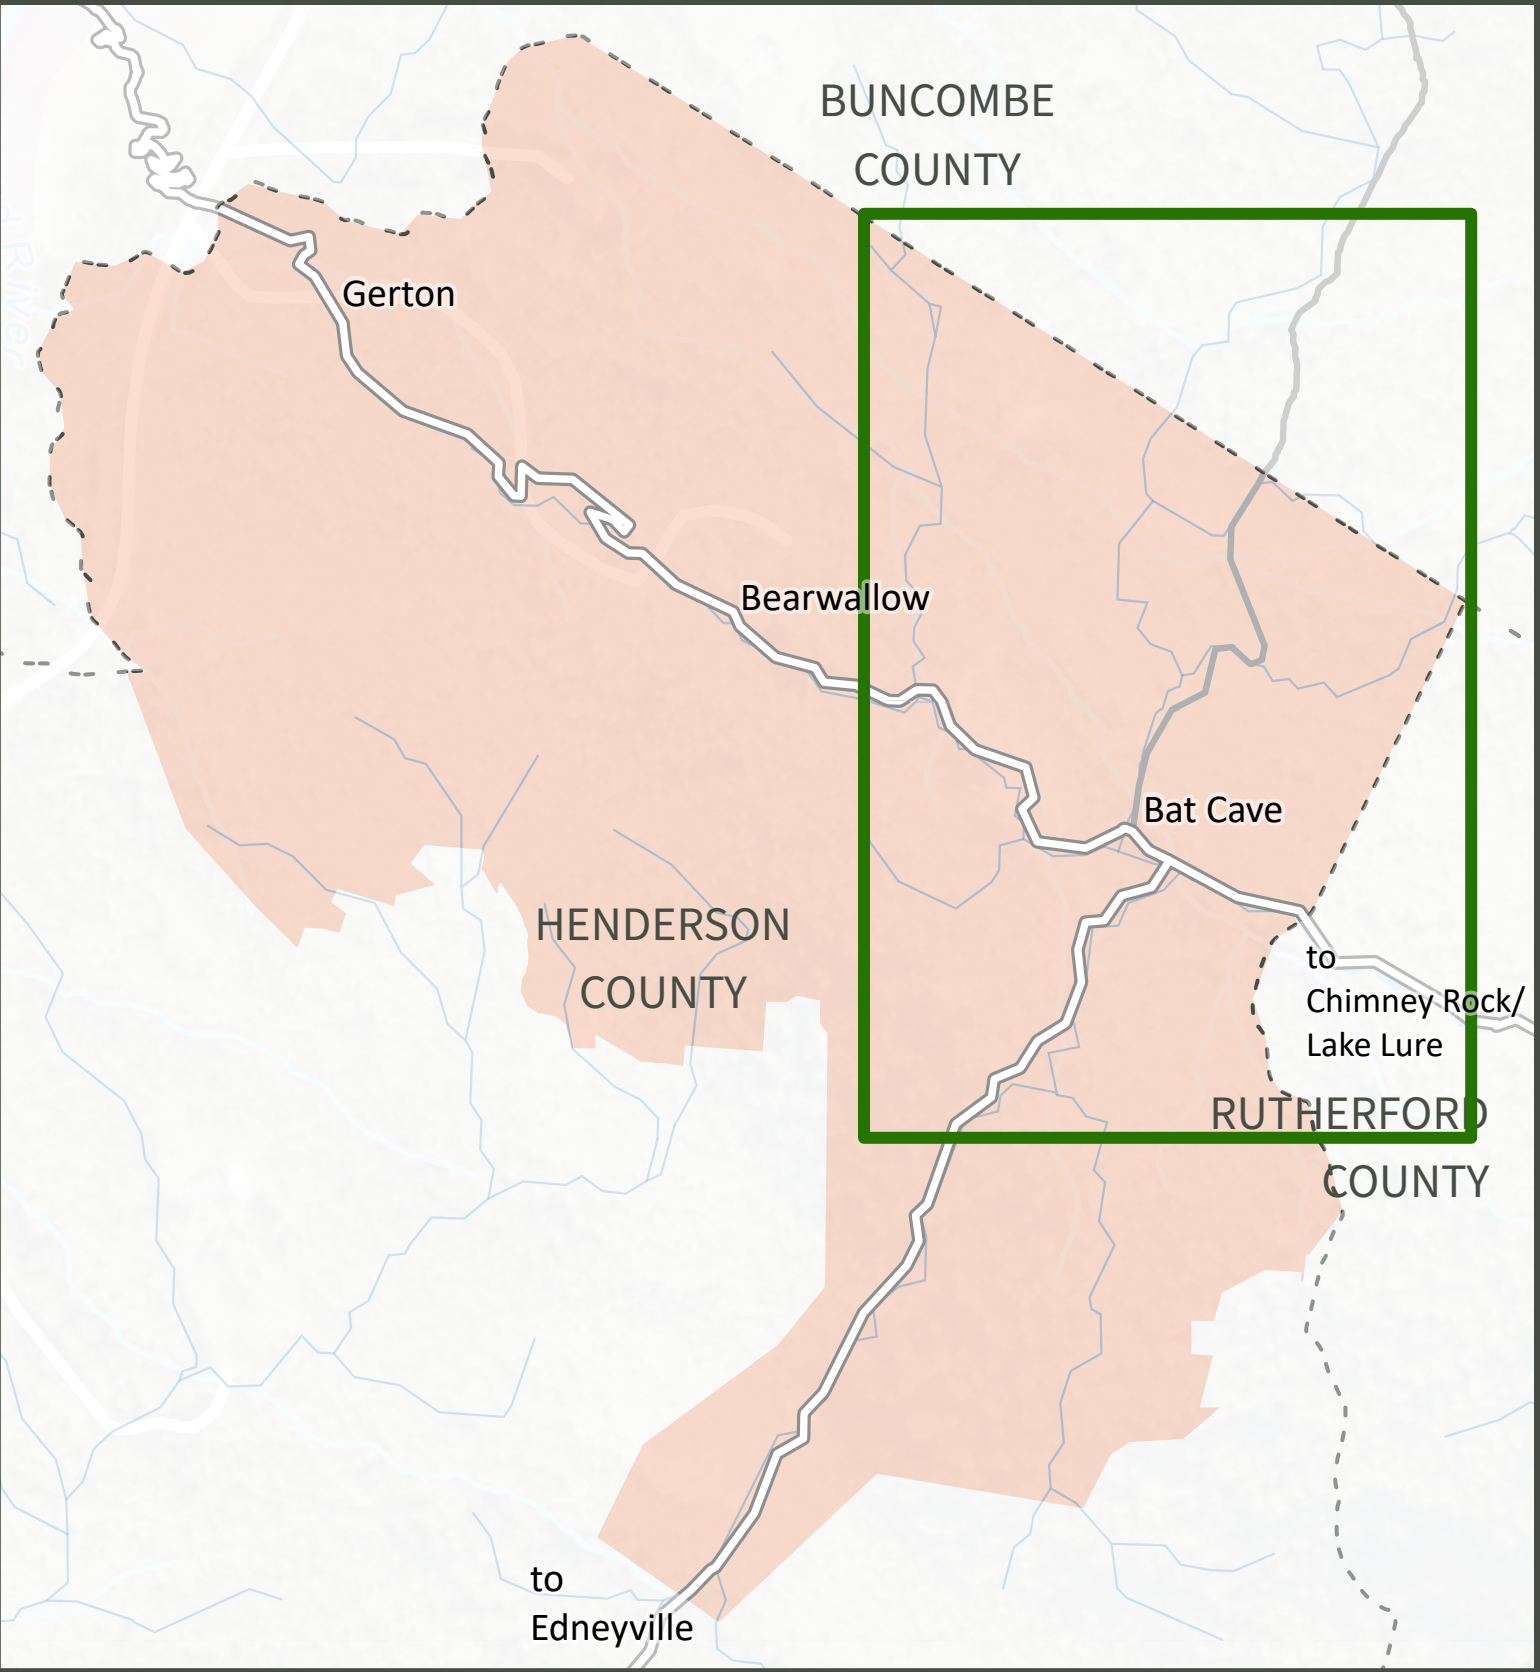

Flood Hazard Data:

- 1% Annual Chance Flood Hazard (100-Year Floodplain)

MAP B | BEARWALLOW
