## 2045 COMPREHENSIVE PLAN

### SUMMARY OF IMPLEMENTATION

**The 2045 Comprehensive Plan was adopted by the Henderson County Board of Commissioners on March 20, 2024.**

The adoption of this Comprehensive Plan is the first step in the implementation process. Now that the plan goals, recommendations, and action steps are finalized, an implementation matrix can be crafted to prioritize the steps to accomplish the outcomes of this 20-year plan. Although many of the recommendations will take years to complete, some actions are priorities for Phase I, like amending the Land Development Code (LDC).

Zoning is the primary tool for implementing the Comprehensive Plan's policies, particularly the Future Land Use Map. Maintaining consistency between the County's Land Development Code and the 2045 Comprehensive Plan is vital to ensure that regulations facilitate, and do not prevent, the implementation of Plan outcomes and goals. Updating the LDC will take many months to complete if done correctly and with the proper public involvement.

Whereas the Comprehensive Plan has a 20-year horizon, the Implementation Plan will provide guidance for specific action items and implementation roles and responsibilities for four, five-year periods. This phasing allows the Implementation Plan to be updated at regular intervals in response to unanticipated opportunities and challenges and to support the long-term vision and goals of the Comprehensive Plan.

In the Implementation Plan Matrix, each of the Plan's action items is assigned to a responsible party and given a time frame for targeted completion. There is also coordinating resources, action types, and action levels listed for each step. All of the actions listed in the Action Plan Matrix are

excerpted from the elements of the Plan and the reader is advised to consult the relevant section for more information and context. The matrix is a mechanism for decision-making, creates accountability, and is a way to measure the progress of plan implementation.

For the 2045 Comprehensive Plan to be an effective tool for guiding the County's land use vision for the next 20 years, it must be implemented in a deliberate manner with a focus toward achieving the three main outcomes:

- Intentional Land Use
- Connectivity
- Opportunity

These outcomes are further divided into eight goals that cover a range of land use issues. These eight goals each correspond to a specific topic area, demonstrating the logical flow between area of concern and desired resolution. The goals are the overarching desires of the County as derived from the public engagement and analysis process that occurred during the Comprehensive Planning process from 2021-2022. Each goal may correspond to and accomplish multiple outcomes.

Land use issues are interconnected and often are reliant upon other decisions to satisfy the goal. The eight goals are:

1. Coordinate development near existing community anchors.
2. Protect and conserve rural character and agriculture.
3. Improve resiliency of the natural and built environments.
4. Prioritize multi-modal transportation options and connectivity.
5. Create a reliable, connected utility and communication network.
6. Stimulate innovative economic development initiatives, entrepreneurship, and local businesses.
7. Diversify housing choices and increase availability.
8. Promote healthy living, public safety, and access to education

Within each of these goals, there are several significant action steps that should be taken to ensure the success of the 2045 Comprehensive Plan. The responsibility for implementation is spread across a range of entities, both within and outside Henderson County government, but ultimately the Board of Commissioners will bear the final responsibility for successfully implementing the plan.

## HOW TO USE THIS PLAN

Common Acronyms and Abbreviations– please use the table below to reference acronyms or abbreviations that may be used in the matrix to maximize space:

ACRONYM/ABBREVIATION	PROPER NAME
AARP	American Association of Retired Persons
ACPT	Apple Country Public Transit
BOC	Board of Commissioners
BRBC	Blue Ridge Bicycle Club
BRCC	Blue Ridge Community College
EAC	Environmental Advisory Committee
FBRMPO	French Broad River Metropolitan Planning Organization
FFA	Future Farmers of America
HCPS	Henderson County Public Schools
HOUSING ASSISTANCE	Hendersonville Housing Assistance Corporation
HRC	Historic Resources Commission
LAND OF SKY/LOS	Land of Sky Regional Council
LDC	Land Development Code
MSD	Metropolitan Sewerage District
NC COOP EXT.	North Carolina Cooperative Extension
NCDEQ	North Carolina Department of Environmental Quality
NC DOT	North Carolina Department of Transportation
PARKS & REC	Henderson County Parks & Recreation Department
RTAC	Rail Trail Advisory Committee
SOIL & WATER	Henderson County Soil & Water Conservation District
TAC	Transportation Advisory Committee
TDA	Tourism Development Authority
THE PARTNERSHIP	Henderson County Partnership for Economic Development
TRC	Technical Review Committee
USGS	United State Geological Survey

“Target Completion Date” refers to when a specific action step is anticipated to be completed or fully implemented. 2045 is the end of the plan horizon, so some ongoing actions may state a completion date of Phase IV when a new plan with new goals and action steps would be created.

All words highlighted in blue italics are defined in the plan glossary for reference.

Please Note: The Utility Service Area (USA) boundary changed after the recommendations and action steps were finalized. Action steps calling for direct action in the USA should not be misconstrued as directives to property where the County does not have land use jurisdiction, like the City of Hendersonville. When written and voted upon, the recommendations and action steps referred to the past USA boundary that contained all areas with existing utilities or planned expansions.

Each action step is given an action type. The types have broad definitions, but a description for each is listed below for reference. The matrix begins on page 10.

ACTION TYPE	DESCRIPTION
DEVELOPMENT REGULATIONS	Zoning, codes, ordinance-related; site planning and development
STUDY/PLAN	Studies, plans, evaluations, research into options, inventories, pilot projects
COORDINATION/ OUTREACH	Convening and coordinating; educating, promoting, marketing, lobbying
FINANCIAL	Issues of funding and financing
PROGRAM/ ORGANIZATION	Programmatic changes/additions; development of new tools, processes, and programs; creation of new institutions
