Message from the Sheriff

The transition into a New Year is a fitting time for reflections and resolutions. Many people will choose to focus their resolutions on fitness or weight loss, but I propose that people expand their health goals to account for the safety and well-being for themselves and their entire family in the coming year.

Since I took office, I have had a vision for Henderson County and I am starting to see some of the pieces fall into place with respect to community preparedness. This county is incredibly blessed with our teams of first responders. It was made more apparent than ever during the Party Rock Fire incident. Agencies came together, our community rallied behind them and Henderson County was able to take care of its own backyard.

However, we may be faced with situations in the future that test and strain our emergency services personnel for extended periods of time. If, God forbid, we experience a large scale natural disaster or act of bioterrorism, how prepared will you be?

So I ask you:

What would you do if you picked up the phone to call 911 and couldn't get an answer?

What would you do if first responders were overrun and unable to respond?

I don't propose these hypotheticals to scare you. I ask these questions to get you thinking.

As emergency responders we do our very best to prepare and train; we have contingency plans and back-ups in place, but we cannot be all things to all people all the time. Citizens who feel too safe tend to become complacent. Although we have a top notch Sheriff's Office and fire and rescue agencies, we cannot sit back and expect someone else, especially the government, to take care of us.

During 2017, I want our county to become more self-sufficient by starting at home. Take small steps to make your family better prepared for an emergency. This could range from creating an emergency supply kit and signing up for <u>Nixle emergency alerts</u> to installing a security system or taking a class in first aid and CPR. As you become more prepared, involve your neighbors, HOAs and churches so that a spark will ignite across our county. The power of the community is a force multiplier for our emergency services personnel and we may be faced with situations where we need your help.

I am encouraged and inspired by what I see occurring in our county, but we have a long road ahead of us. Our strength will lie in the very bonds and relationships we are working to build today. My prayer is that we look after ourselves, our families and our neighbors because we do not know what 2017 and beyond may bring.

God bless you and your family in the New Year!

Sheriff Charles S. McDonald

Deputy Towle responded to a possible overdose call and found a 25 year old victim lying unresponsive on the bathroom floor. Deputy Towle was unable to

locate a pulse and without hesitation administered one dose of Narcan. After administering a second dose the subject started to breathe and Towle was able to locate a pulse. Fire personnel arrived on scene and assumed treatment of the patient.

Congratulations to Detective Terry Tweed on his retirement! Detective Tweed has served the Henderson County Sheriff's Office as a Chaplain, School Resource Deputy, Property Crimes Detective, Fingerprint Examiner, Honor Guard member and Cadet Corps Advisor. Read the <u>Guardian article</u> from October 2015 to learn more about Detective Tweed's service to our county, nation and world.

A citizen had a positive interaction with our deputies and took the time to share her story. A female resident of Sylva was driving by herself to Greenville, SC when her tire blew on the 25 Connector. She said it was getting dark and she was scared to the point of tears. After a few moments Deputy Woodson and VIP Livingston pulled up to assist. To her amazement, Woodson and Livingston changed her tire and gave her instructions on how to drive with a 'donut' tire. The citizen appreciated their compassionate assistance.
