

REQUEST FOR COMMITTEE ACTION

HENDERSON COUNTY TECHNICAL REVIEW COMMITTEE

MEETING DATE: March 21, 2023

SUBJECT: Belgian Waffle Ride Special Event Application

PRESENTER: Matt Champion, Zoning Administrator

ATTACHMENTS: 1.) Public Safety Plan

SUMMARY OF REQUEST:

Matthew Busche and Joe Schmalz on behalf of Monuments of Cycling has applied for a special event permit with an anticipated attendance of 1,200 participants. A special event with more than 500 participants requires Technical Review Committee approval. The event is called “Belgian Waffle Ride”. The event is to be held at the Kanuga Conference Center on June 10, 2023. The public safety plan submitted lists 25 staff to serve the event.

SUGGESTED MOTION:

I move to approve, approve with conditions, deny the special event permit for Belgian Waffle Ride.

PUBLIC SAFETY PLAN FOR SPECIAL EVENTS

The purpose of this document is to provide special event planners a guide to address potential safety hazards and to identify safety procedures that should be in place prior to an event.

Complete all applicable fields, and identify any fields that are not applicable to the event with an N/A.

ADDITIONAL INFORMATION		
PLAN REVIEW AND APPROVAL		
Plan Created By:		Date:
Plan Reviewed By:		Date:
Plan Approval	Yes No	Date:

Check List and Instructions:

Plan must be submitted to Henderson County Zoning Administrator no later than 60 days prior to the event.

Plan must be submitted for review with any applicable attachments including

- Event site plan (map)
- Parking plan
- Facility floor plan (evacuation route map)
- Any other applicable permits or attachments

Upon completion and approval of the event public safety plan:

- Keep the plan in a readily accessible location.
- Provide on-site Emergency Action Plan meeting with all appropriate agents before event. • Provide access to the plan to all event staff.
- Allow all event staff adequate time to review the plan.
- Ensure that all event staff understand the plan and their duties as assigned in the plan.

On event day the following procedures will be followed:

Proper electrical and mechanical codes will be utilized at all times.

All event staff will be familiar with emergency procedures and relocation areas.

Required PPE items will be on hand for use, this will include the following; First Aid, Safety Glasses, Safety Vest, Hearing Protection and Flashlights. Event Safety Coordinator will advise on any additional safety items.

Event Manager/Event Safety Coordinator will monitor weather for changes. This will include some type of monitoring alert system such as a weather radio.

All inflatable rides will be inspected prior to start of the event by the Event Manager/Safety Coordinator. All Fire Watch and TCM personnel will begin ½ hour prior to start of the event and remain in effect ½ hour after the conclusion of the event.

All traffic controllers will have the following PPE provided to them: safety vests (minimum level II); safety glasses, flags for daytime use; flashlights or glow sticks for nighttime use; and hearing protection if deemed necessary and communication if deemed necessary.

Event staff working around heavy equipment, generators or any other device deemed by the safety coordinator as producing sound levels greater than 90 decibels will wear ear protection.

Event staff will be informed of procedures to follow related to security issues prior to start of event. All Patron injuries will be tracked and recorded.

All vehicles that are used during the event will have the following: First Aid supplies (as prescribed), fire extinguishers 10lb (A-3, BC-40).

All tents will be equipped at a minimum with appropriate tie downs (includes vendors). All tents will have the following: 5lb (A-2, BC-10) fire extinguishers (mounted) and "No Smoking" signs. There are additional requirements that shall apply based on size, type and location of larger tents. All tent data should be provided during the written or lay out plan.

All ride vendors must comply and pass inspection prior to the start of the event (refer to vendor inspection sheet).

All inflatable rides shall be taken out of operation when any of the following is met: severe weather (that does include rain storms); winds exceeding 25mph; or temperatures that exceed manufacturers recommended design (that is 90° F for most inflatable rides).

Key Definitions:

An **Area of Refuge** is a location in a building designed to hold occupants during a fire or other emergency, when evacuation may not be safe or possible. Occupants can wait there until rescued by firefighters.

The **Indoor Relocation Area** is an interior space that can accommodate the occupants of the event and provide the most protection from outside hazards, the most recognizable threat being severe weather.

The **Outdoor Assembly Area** is an open outside location at least 100 feet from the evacuated facility where occupants temporarily gather following an evacuation in an effort to make sure everyone is out of the building safely. This area should be located away from access points used by emergency vehicles.

Trained Crowd Control (training):
