**The 2020 CCP:** The CCP Future Land Use Map places the Subject Area in the Rural/Agricultural Area. The text and map of the 2020 CCP suggest that the Subject Area would be more suitable for the following:

The following is a description of the patterns of development envisioned within the RAA: 1. The RAA covers those portions of the county that are predominantly rural and are characterized by low-density residential development with substantial land areas devoted to agriculture and undeveloped lands. Land use policies will seek to retain that character. 2. Slopes are typically steep, often exceeding 10%, with significant areas greater than 20%.

**6. Staff Recommendations**

Staff's Position, under the guidelines of current plans, policies and studies, is to overrule the appeal and uphold Henderson County's decision to enforce the Public Health Nuisance Ordinance and require removal of all junked motor vehicles, abandoned manufactured homes and outdoor storage of solid waste.
