**5. Staff Comments**

**The 2020 CCP:** The CCP Future Land Use Map places the Subject Area in the Urban Services Area. The text and map of the 2020 CCP suggest that the Subject Area would be more suitable for the following:

The following is a description of the patterns of development envisioned within the USA.

1. The Urban Services Area is that area within which most urban services and urban- scale development is currently concentrated, and within which such development should generally be concentrated through the year 2020.
2. Growth and development will be proactively managed through extensive planning. Much of the USA falls within municipal planning jurisdictions and will be managed by those jurisdictions. Land use planning for areas falling within the County’s jurisdiction should be comparable and compatible in its approach and intensity with planning conducted within the various municipal jurisdictions.

**6. Staff Recommendations**

Staff’s Position, under the guidelines of current plans, policies and studies, is to overrule the appeal and uphold Henderson County’s decision to enforce the Public Health Nuisance Ordinance and require removal of all junked motor vehicles, and outdoor storage of solid waste.
