

RFQ: Special Inspections and Construction Materials Testing Services

New Edneyville Elementary School

Henderson County is accepting qualification proposals for Special Inspections and Construction Materials Testing Services during construction of the new Edneyville Elementary School located at 2875 Pace Road in Hendersonville, NC until June 14, 2018 at 100 North King Street Suite 206 Hendersonville, NC 28792. The scope of the project will include complete special inspections and construction materials testing services inclusive of soils, foundations, concrete, and steel testing, and any other services necessary and/or required to complete the work during construction for the new Edneyville Elementary School. The new Edneyville Elementary School will include high bay single story spaces for the cafeteria, gymnasium, and media center, a 2-story classroom component for grades K-2, and a single-story component for grades 4 and 5. The school is a steel structure with wood and metal decks. The total building size is approximately 89,000 square feet and sits on a 25-acre site. Plans, specifications, addendums, and a geotechnical report can be found on Barnhill Contracting Company's website at www.barnhillplanroom.com. The architect's representative is Aaron Brumo with Clark Nexsen and can be contacted at ABrumo@ClarkNexen.com. Construction is slated to begin in mid-June 2018.

As a general guide to prospective proposers, the Professional Services selection procedures adopted by North Carolina, appropriately modified by Henderson County, will be employed in this process. All proposals must include all aspects of North Carolina law and Henderson County policy. The owner retains the unqualified right to reject any and/or all proposals. The owner may or may not interview potential candidates to assist in the selection process.

For the purpose of coordination, the primary contact for project information will be Thad Ninnemann, HC Capital Projects Project Manager, 828-577-1501, or at tninnemann@hendersoncountync.org
